Two new hiring requests were recently approved for a new Survey and Register Division manager and an easement position. An archaeologist has accepted a position as review archaeologist. The vacant position for Director of CRPO will be filled by Marc Wagner effective January 2, 2014.

The annual Virginia Preservation conference took place in Roanoke in October 2013. DHR co-sponsored the event. More than 100 people attended. The Archaeological Society of Virginia held its annual meeting in October 2013 at the Cavalier Hotel in Virginia Beach.

Virginia received \$1.1 million in federal funding for the Hurricane Sandy recovery effort, and DHR will work with National Park Service to disburse the funds. Progress continues on the CLG and Cost Share projects for which DHR awarded funds in the current state fiscal year. DHR is continuing to administer state and federal grant funds for battlefield preservation.

There are 13 nominations on this morning's agenda for the joint session. This afternoon the HRB will have 5 highway markers and 1 easement to consider.

EASEMENTS

Easements for Consideration

1. Thomas Tract, Beaver Dam Creek Battlefield, Hanover County

Property Owner: Richmond Battlefields Association

Acres: 8.30

Grant Funding (tentative): American Battlefield Protection Program, Virginia Civil War Sites Preservation Fund

Staff recommended approval with the condition that demolition or removal of existing buildings and structures and rehabilitation/restoration of the landscape shall be conducted according to a written management plan and within a specified time frame, and such plan shall be incorporated into the easement either directly or by reference.

Chair Rich asked if a time schedule for demolition was available now or if had to be negotiated. Musumeci replied that it was not available now and would depend on available funding and the condition of the existing buildings and structures on the property.

Chair Rich moved to accept the offer and the HRB voted unanimously to approve Item #1 as presented.

Easements for Reconsideration

Ms. Musumeci presented the following easements to the HRB for reconsideration:

1. Kronenwetter Tract, Chancellorsville Battlefield, Spotsylvania County

Property Owner: Civil War Preservation Trust

Acres: 27.48

Grant Funding (tentative): American Battlefield Protection Program, Virginia Civil War Sites Preservation Fund

With a motion from Ms. Hauser and a second from Mr. Mann, the HRB voted unanimously to approve Item #1 as presented. The HRB asked staff to provide a strong message to the landowner that this was a one-time approval and that the HRB may elect not to accept revised terms that conflict with its original approval of the easement in the future.

2. Curles Neck Farm, Henrico County

Property Owner: Curles Neck Properties, LLC

Acres: 125.7

Mr. Mann asked if the proposed boathouse or guesthouse would impact the viewshed of the property from Route 5. Ms. Musumeci replied the property was not visible from Route 5, but from the James River and explained that limitations on the size, siting, and design of the boathouse and guesthouse would help to protect the viewshed. Ms. Bearns noted that any dock or dry dock over the James River would be subject to Virginia Marine Resources Commission and/or U.S. Army Corps of Engineers permits. Chair Rich asked if there would be a square footage limit and Ms. Musumeci replied yes. Chair Rich inquired about the deteriorated structures on the property. Ms. Musumeci

replied that the easement would require maintenance and prohibit demolition for many of the historic buildings and structures on the property.

Preliminary Information Applications

The following proposals were *endorsed*, unless otherwise noted, with the following comments:

Preliminary Information Applications

Tidewater Region.....presented by Pam Schenian

1. Brighton/Hollerith Farm, Mathews County, #057-5089, Criteria B and C
Comments: Recommended to proceed.
2. Courtland School, Town of Courtland, Southampton County, #201-5005, Criteria A and C
Comments: Recommended to proceed.
3. Granby Street Auto Row Historic District, City of Norfolk, #122-5797, Criteria A and C
Comments: Ms. McDonald noted that the parking lots within this historic district are functionally related to the significance of the district's preponderance of auto-related buildings. The period of significance ends in 1966 to include one purpose-built, auto-related building that also relates to the historic patterns of development within the district.
4. Kenwood, Gloucester County, #036-0121, Criterion C
Comments: Recommended to proceed.
5. Security Storage and Safe Deposit Company, City of Norfolk, #122-0901, Criteria A and C
Comments: Mr. Marcus Pollard explained the evolution of the fenestration pattern on the building. Dr. Metz asked how changes in market products and shipping patterns may have influenced changes to Norfolk's industrial waterfront. Mr. Lahendro noted that historic photos provide enough information to replicate all of the sash that have been removed. Mr. Lahendro asked that one replicated sash be installed in the building so that SRB could see how it would look. If a replicated sash is installed, the SRB members agreed to defer to DHR staff recommendation on the property's National Register eligibility to expedite the re-evaluation. Until then, the SRB recommended that the property is "conditionally eligible" under Criterion A pending installation of the sample sash and DHR staff review. Mr. Lahendro and Dr. Metz asked that a nomination include a substantive argument for significance under Criterion A, focusing on what was stored here and how the company marketed its services.
6. Sussex-at-Norfolk Apartments Historic District, City of Norfolk, #122-5796, Criteria A and C
Comments: Mr. Lahendro suggested discussing the apartment complex's communal facilities in a nomination. Chair Moore suggested including discussion of the complex's use to provide housing for naval personnel. Mr. Pollard noted the landscape design retains a high level of integrity.

Northern Region.....presented by Joanie Evans

1. Carters Run Historic District, Fauquier County, #030-5603, Criteria A, B, and C
Comments: Dr. Metz noted the district includes two outstanding historic barns. Ms. Debra McClane said the historic district boundaries are largely based on an 18th century land grant and on lengthy tenure of family ownership since that time. The core of the district is a valley with a creek running through it.
2. Murray Hill, Loudoun County, #053-5783, Criterion C
Comments: Mr. Lahendro noted the woodwork in the dwelling is exceptional. Ms. Lori Kimball noted the original owner was very involved with the house's design and kept a diary. Mr. Lahendro suggested acquiring more information about specific aspects that illustrate how Murray Hill is based on the Rust family's ancestral Rockland property. Ms. Kimball said that original architectural drawings are believed to be in possession of the family. She added that some aspects of the house's design utilized industrial materials and were based on the original owner's construction experience with his engineering firm. Dr. Metz asked about the property's agricultural history and how it fit into the larger social context of Loudoun County.

3. New Hampden Mill, Highland County, #045-0019, Criteria A and C
Comments: Dr. Lanier asked if any of the historic milling equipment was stored offsite. Ms. Evans said it is not known if any equipment is stored elsewhere, but that the mill's historic turbine is extant. Some parts of the interior were not accessible during site inspection, making it possible that other equipment remains in the building. Chair Moore suggested any milling equipment still extant should be retained if possible. Mr. Lahendro said the building's significance would be harder to explain if the equipment were removed, and recommended that a nomination include how the mill operated historically. Dr. Lanier advised that any miller's marks on walls also be preserved.
4. Newtown Cemetery, City of Harrisonburg, #115-5129, Criterion A
Comments: Dr. Metz noted that Civil War veterans are among the interments at the cemetery. A representative of the Newtown Cemetery trustees said that both Union and Confederate soldiers are believed to be here, but few of those graves have markers. Mr. Lahendro asked if the cemetery ever was fenced, and the trustee said no. Vice-Chair Lee asked for clarification on the cemetery's ownership history. She noted the fact that the cemetery was established independently of a church during the Reconstruction period is unusual. The cemetery trustees said that faculty at James Madison University will be assisting with limited archaeological investigations of the cemetery and with preparation of a NR nomination draft.

Western Region.....presented by Michael Pulice

1. William King Museum, Town of Abingdon, Washington County, #140-5034, Criterion C
Comments: Recommended to proceed.

Capital Region.....presented by Lena McDonald

1. Glendale Mill, Brunswick County, #012-5098, Criteria A and D
Comments: Chair Moore recommended the African American social history be documented. Dr. Metz said the number of other African American-owned mills in the area would be good to know.
2. James River Canals on the South Bank, City of Richmond, #127-6734, Criteria A and C
Comments: Dr. Metz asked if the canal segments would be nominated as a single resource. Mr. Wagner said the most likely approach would be to nominate the resources as a discontinuous district. Ms. Nancy Kraus said a full 5 miles of the canals have been surveyed via walkover along the river's south bank. Dr. Moore asked about associated archaeological deposits. Ms. Kraus said the properties have not been subjected to archaeological testing. Mr. Wagner said DHR staff have recognized high potential for eligibility under Criterion D, although professional archaeological investigations would be needed to verify. Mr. Lahendro recommended preparing a historic narrative that explains how the canals were originally constructed and how they related to one another in function and use.
3. Mountain Road Historic District 2013 Boundary Increase, Town of Halifax, Halifax County, #230-0078, Criteria A and C
Comments: Recommended to proceed.

Chair Moore adjourned the SRB meeting at 3:30 p.m.
